There are safety caps that are present on the mouthpiece, e-liquid tank, and airflow holes. These caps are placed to ensure the safety of the device before you use it. You can now remove these safety caps and assemble your device.

3. ACTIVATION OF DEVICE

Next, you have to activate your Vozol Vista 20000 puffs device. This device like other Vozol Vista devices employs a draw-activated system. This means you have to take a gentle and steady puff to activate your device. Do not hurry in this as it can lead to improper activation.

4. INHALE GENTLY

Slow down! Keep it slow, be easy. No need to hurry the device is going to stay with you. So take it easy and inhale gently, take small steady puffs, and take a few seconds break before your next puff. This ensures that the wick reabsorbs the e-liquid, avoiding burnt taste.
